The nation's traffic death toll in the Memorial Day weekend appeared headed for the pre-holiday estimate of 350 early Monday.

The count ended at midnight Sunday and the latest tabulation showed 344 traffic deaths.

National safety council officials earlier had expressed hope that a lessening in traffic in many areas Sunday because of wet weather might hold the toll below its 350 estimate for the 78-hour holiday period.

The record of 369 deaths was set in 1955.

The current holiday was marred by several unusually bad accidents in various sections of the nation which caused multiple deaths. Four of the crashes took 21 lives.

Seven died in a flaming automobile-truck collision on a bridge near Ranger in north central Texas. Another fiery head-on crash killed 6 persons at Mount Vernon, N.Y.

## Prowlers Rob Waterloo Lumber Firm Of \$80-\$90

Waterloo, Neb. (AP) — Search was underway Sunday night for a pair of prowlers who fled from the Waterloo town marshal after taking \$80 to \$90 from the Waterloo Lumber Co. office.

Marshal Lee Copeland said he was making his rounds when he saw one of the pair peer out the front window of the lumber firm.

"Just like he was trying to see if the coast was clear," Copeland said.

The marshal fired one shot high into the front wall of the building and the pair fled in a car waiting inside the lumber yard.

west of Stanton Sunday evening.

The dead were identified as Fred Smith, 58, Omaha; his wife, Louise, 48, and Roy Moerike, 31, of Norfolk.

Injured and taken to a Norfolk hospital were Miss Dorothy Smith, 23, a daughter of the dead couple; Mrs. Smith's sisters, Mrs. Martha Smith, 55, of Omaha, and Moerike's sons, Roy Jr., 6, and Carter Lee, 4.

Investigating officers said it had been determined that Miss Dorothy Smith was driving the car when it was in collision with the one driven by the elder Moerike.

Mrs. Martha Smith suffered 2 broken legs, and Miss Smith has head injuries and possible internal injuries. Each is in serious condition.

Carter Lee Moerike's condition was listed as "very critical" Sunday night. He suffered extensive head injuries. Our Lady of Lourdes Hospital reported. Roy Moerike Jr. appeared to have escaped serious injury.

## 1 Dead, 7 Hurt At Falls City

Falls City, Neb. (AP) — An Omaha woman was killed and 7 other persons injured, 6 of them seriously, in a 2-car head-on crash on Highway 73-75 at Dawson Corner, about 17 miles northwest of Falls City Sunday night.

The dead woman was identified by sheriff's officers as Mrs. Mary Elizabeth Hall, 28, of Omaha.

Injured were Mrs. Hall's husband, George, 28, and the couple's 4 small children. All were hospitalized were Jimmy Masonbrink, 17, and Jerry Bryant, 17, both of Humboldt. Officers reported that all the injured except Hall were in serious condition.

When the cars collided head on, Hall was driving one and Masonbrink the other.

## Omahan Killed In Minnesota Auto Accident

Osakis, Minn. (AP) — Eldon Lawrence Berg, 26, Omaha, Neb., was killed instantly early Sunday when he lost control of his car and the machine flipped over.

The accident occurred about 8 miles east of here on Highway 27 which is under repair. He was traveling alone. Osakis is about 115 miles northwest of Minneapolis.

## Rushville Man Dies In Wyoming

Wamsutter, Wyo. (AP) — David Miller, 45, of Rushville, Neb., was killed and his nephew, Tyrone Miller, 18, also of Rushville, was seriously hurt two miles east of here in a highway accident.

State patrolman Joe Eastman said the accident occurred after the late model convertible in which they were riding developed tire trouble and overturned.

Both men were thrown out. The car rolled on David Miller, killing him instantly. Tyrone Miller was thrown free, but suffered a possible broken back. He was taken first to Carbon County Memorial Hospital in Rawlins, Wyo., and later transferred to a Cheyenne hospital.

Eastman said the men were returning to Rawlins after checking on possible construction jobs at Wamsutter.

## ILLINOIS— Tank Car Explosion Ousts 1,000 ... 2 Killed, 20 Hurt

Mount Pulaski, Ill. (AP) — One thousand of this central Illinois town's 1,500 residents were evacuated Sunday after a railroad tank car exploded, killing 2 trainmen and causing an estimated one million dollars property damage.

A score of townspeople were injured in the blast. Police earlier ordered all residents to leave but after the flames were extinguished evacuated only those whose homes were most seriously damaged.

Larry Shroyer, Lincoln Civil Defense head, estimated the damage. Gov. William G. Stratton ordered 200 National Guardsmen into the area and directed that a 200-bed Civil Defense hospital unit be set up to house some of those evacuated.

Flames Spread Police ordered the evacuation as flames from the blazing tank car spread to a grain elevator adjacent to the tracks and to several nearby houses. The blaze was put out about 2 hours after the blast.

The blast caused heavy property damage. Virtually every window in this farming community was broken, chimneys were toppled and some power and telephone lines felled.

It occurred as the cars on an Illinois Central railroad freight train were being switched. Cause of the explosion had not been determined.

## Police Clubs, Copters Defeat Anti-Gaullists

Paris (AP) — Communists and other leftists opposed to Gen. Charles de Gaulle as premier clashed with riot police in the center of Paris Sunday. The police held the upper hand.

Demonstrators streamed into Paris on foot, buses, subways and cars from the "Red Belt" industrial outskirts. They came by the thousands, singing the Marseillaise and carrying the French flag.

"Down with de Gaulle," they cried. "Long live the republic."

The police, guided by radio from helicopters chattering overhead, met the mobs as they swarmed in from many directions. The demonstrators flailed with their sticks; the police answered with heavy clubs.

Kept From Massing The police tactics were to keep the demonstrators from massing in great strength at any one point. The Paris marchers were joined by thousands more in a half dozen of the capital's main squares.

In the Place de la Republique, in the northern industrial part of the city, at least 2,000 gathered, sang the French national anthem and shouted anti-Gaullist slogans.

Within minutes, however, police routed them down the 10 avenues leading into the square. Massive police roadblocks turned back — some times with fighting — thousands more who tried to reach the square. Then police

## Quickly Asks Free Hand To Rule Country

RIOTS, ANGRY WORDS JAR PARIS

Paris (Monday) (AP) — Gen. Charles de Gaulle held the reins of power in France again Monday. His first official act was to ask the National Assembly for a free hand in running the country for the next 6 months.

The assembly Sunday night approved de Gaulle's bid to become premier by a 329-224 vote. There were bitter words in the assembly and Communists fought police in street demonstrations against him, but de Gaulle won.

Following through swiftly, he asked the assembly to give him a new shortcut procedure for amending the constitution and to extend special shortcut procedure for amending to extend special power measures which his predecessors have had for dealing with the 3½-year-old Algerian rebellion.

Within minutes, the Assembly reconvened to receive the texts of 3 government bills. They were referred to committees and a floor debate was scheduled for 10:30 a.m. (4:30 a.m. EST).

## Rule By Decree

The "blank check" legislation sought by de Gaulle would give his cabinet power to rule France by decree for 6 months.

At the end of that period all interim measures would be filed with the assembly for ratification.

As parliament received the bills, de Gaulle's aides sent out word that he wanted rapid approval so he can fly to Algiers this week in an effort to restore governmental order in Algeria, ruled for almost 3 weeks by a military-civilian junta that has proclaimed backing for de Gaulle. No firm date was given for the trip, but de Gaulle was reported eager to go to North Africa Tuesday or Wednesday.

De Gaulle was moving to steer France on a course he declared necessary to avoid "a breakup and civil war."

## Ends Censorship

In another move, he abolished the censorship Pierre Pflimlin's out-going govern-

ment had imposed on news and pictures distributed in France following the Algeria Gaullist uprising May 13.

De Gaulle, the tall, stern-faced World War II hero, met with his cabinet under President Rene Coty's chairmanship at the Elysee Palace in a full dress meeting conducted more along lines of a military briefing than the usual cabinet session.

In about an hour, de Gaulle and his ministers discussed, drafted and approved the texts of 3 bills the general had de-

manded as part of his extraordinary powers.

De Gaulle avoided both the extreme left and extreme right in making his cabinet choices. The lineup shows he hopes to put together a majority coalition from the center parties which possibly could govern successfully after the 6 month's emergency rule de Gaulle has outlined.

An indication of de Gaulle's approach to his task came from a veteran observer of cabinet sessions after the general's meeting with his ministers.

## La Difference

"The difference with him," said the informant, "is he knows what he wants and practically just asks for the ministers' approval."

One of the 3 bills approved by the cabinet concerns de Gaulle's proposal to change the procedure for amending the constitution. Another is for an extension of the powers in Algeria. The third covers the sweeping powers de Gaulle wants in domestic legislation.

Moving with the precision of a field commander, de Gaulle presented his bid for support to the assembly in only 6 minutes, 4 seconds. He spoke in icy, passionless tones and then abruptly left the great red-and-gold trimmed chamber for his hotel to await the result of the vote.

'Blackmail' Cries of "dictator" and "blackmail" echoed through the assembly in the 3½ hours of debate that followed. Speaker after speaker was interrupted by imprecations, groans and derisive protests.

But despite the opposition raised in the assembly and in the streets of Paris, the parliament moved doggedly on to return de Gaulle to the helm of a nation struggling in its great postwar crisis.

## RAIN, HAIL, WINDS HIT PANHANDLE

Gusty winds up to nearly 50 miles per hour fanned thunderstorms across the Nebraska panhandle Sunday evening, dumping rain and hail.

At Lisco, northeast of Sidney on the Platte river, 1.75 inches of rain fell during a short thunderstorm.

Hailstones ¾ inch in diameter pelted Scottsbluff during a heavy thunderstorm, one of a line of thunderstorms extending from Alliance to Sidney.

The Weather Bureau at Scottsbluff received an unconfirmed report of a funnel cloud 14 miles northwest of Dalton Sunday evening. Dalton is 50 miles southeast of Scottsbluff.

Chadron reported wind gusts of nearly 50 miles per hour in a thunderstorm.

The warmest temperature in the state Sunday was also in western Nebraska. Scottsbluff reported the state high of 85. Imperial was low with 51. Lincoln recorded a high of 72 and low of 63.

## U.S. Hopes Relations 'Friendly'

Washington (AP) — The Eisenhower administration made a bid Sunday night for "intimate and friendly relations" with the new crisis government of France under Gen. Charles de Gaulle.

The use of that phrase in a White House statement fed speculation that when the time is right President Eisenhower will seek a personal meeting with the new French premier, a wartime associate.

The President said last week he had liked de Gaulle. It was the first formal U.S. government comment on the French crisis since it developed.

There was obvious relief in official quarters here that de Gaulle had finally come to power as premier, an action which the White House and State Department had considered for some days to be inevitable if political chaos was to be avoided in France.

At the same time there was deep and worrisome uncertainty in official quarters over de Gaulle's policies now that he has charge of the destiny of France.

# Farm Costs Zooming--Prices Booming

## USDA Says Costs Are Keeping Pace With Increase

**By Bill Anderson**  
The current business recession has had little effect on farm production costs, although the cost-price squeeze has been eased somewhat this spring by a steady spiral in farm prices.

The index of prices paid by farmers for goods and services used in production reached a record high in mid-April, according to U. S. Dept. of Agriculture statistics.

In recent years, farmers have spent about \$10 billion annually for production goods and services of nonfarm origin—4 times as much per year as in the 1935-39 period. Price increases account for about half of the total increase in expenditures, according to the Department.

In April, the index of prices paid by farmers for goods and services, including interest, taxes and wage rates,

climbed 4% above the index of April, 1957.

From mid-April to mid-May, the index of both prices paid and prices received remained unchanged—the first time in 5 months that the average level in prices received for products had not shown an increase.

**Feeder Cattle Rise**  
A 25% rise in feeder cattle prices during the year accounted for much of the increase in overall production costs, accompanied by 4% or more hikes in farm-mortgage interest payments, farm machinery, farm real estate taxes, motor vehicle and farm supplies.

Decreased costs of motor supplies, seed and feed items during the year amounted to only a negligible portion of the total cost picture. These 3 items experienced a 2% reduction.

**23% Rise**  
Since 1949, production costs have risen by 23%, including a 72% rise in real estate taxes; a 51% hike in machinery costs; 45% in motor vehicle cost; 32% in wage boosts; and a 25% rise in farm supplies. Costs of feed and seed declined 12%. The most spectacular rise occurred in mortgage interest payments per acre—an alarming 122% increase since 1949.

If items that originate on farms are excluded, such as seed, feed and livestock, the increase in total farm operation costs since 1949 has been 43%, according to the USDA.

The total of all farm operating expenses was at an all-time high in 1957—\$4 billion above the previous record high in 1951.

## Light Vote Expected In Iowa Primary

Des Moines (AP)—Republicans and Democrats will choose their nominees for governor, 8 congressional seats and a full slate of state officers in Iowa's primary election Monday.

For Republicans it will be the opening skirmish in a drive to recoup the losses of 1956, when Democrats carried the governorship for the first time in 20 years and also denied the state's solid Republican representation in congress.

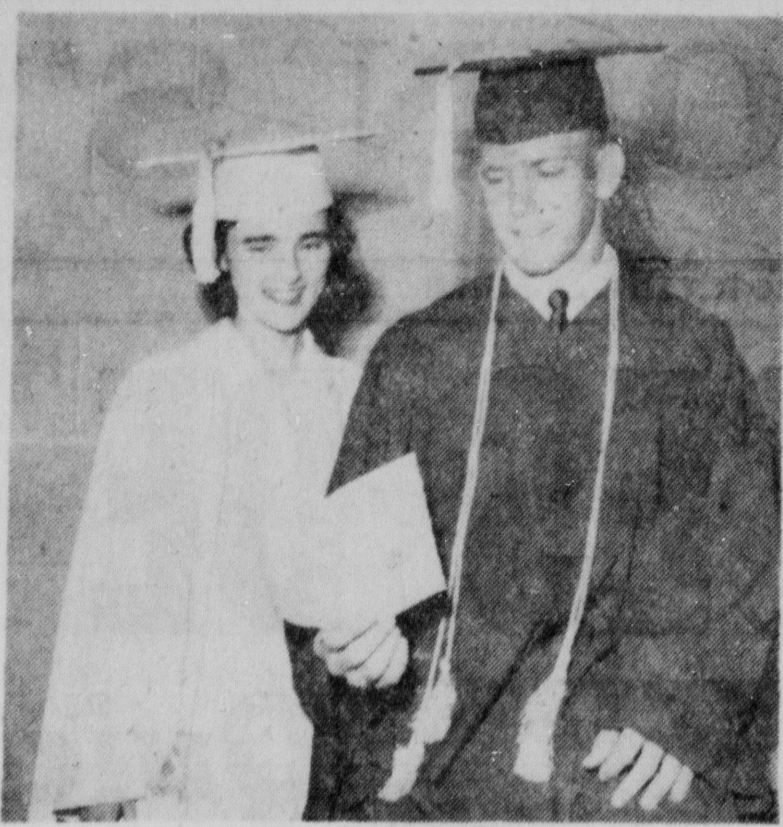

Except in the Republican race for governor, where a clash over tax philosophy generated a bit of heat, the campaign has been a quiet one. Leaders of both parties were predicting a light vote of perhaps 200,000.

Gov. Herschel Lovelless has no opposition for renomination on the Democratic ticket. On the Republican side, Dr. William G. Murray, an Iowa State college economics professor, and Lt. Gov. William H. Nicholas are vying for the right to run against Lovelless in the fall.

Six of the 7 incumbent Republican congressmen are running for re-election and 5 have no primary rivals. Also unopposed for renomination is Rep. Merwin Coad, Iowa's lone Democrat in congress.

## Monsignor Brown Stresses Education-Religion Link

"You are the storm troops of our great nation as she stands fast against the ghastly spectre of atheistic Communism," a noted Catholic leader told a 52-member Pius X graduating class at commencement exercises Sunday evening.

The Very Rev. Msgr. Cornelius Brown, M. A., Diocesan Superintendent of Schools of Salina, Kan., guest speaker at the graduation program, said, "God has given you a power that transcends all natural powers and cannot be measured in words."

"The reason for the success of Communism and other evils in the world today is

that forces of evil are more interested in using the power of the devil than we are in asking for and using the power of God.

"Out of the welter of ideas being offered during this period of re-evaluation and the exposure of shortcomings in the general educational system, sound-thinking men now see the mistake of separating religion from education."

"Men are tortured by a real anxiety and are brought to ask themselves if they will preserve their own control or if they will not fall victim to their own progress."

Msgr. Brown's talk climaxed addresses by top honor students Michael Wieland, who was chosen as salutatorian, and Karen Costin, valedictorian and top 1958 graduate of the high school.

Diplomas and scholarships were conferred upon the graduating seniors by the Most Rev. James V. Casey, Bishop of Lincoln.

## Citizens Council Asks Phone Tax Abolishment

The Nebraska Citizens Council, a tax research group, Sunday called for abolishment of the federal excise tax on local telephone service "as soon as practicable" and termed as "weak and questionable" efforts to turn part of such tax back to the states for support of some federal aid programs.

President Eisenhower recently recommended to Congress that the federal government retain 60% of the 10% excise tax on telephone service, and transfer the other 40% to the states to assist them in financing their own needs for vocational education and water pollution control.

The Citizens Council called this a "noble attempt to reduce federal support programs," but maintained the effort was "weak and questionable."

**'No Connection'**  
There is "not the remotest connection between the telephone tax and the benefits from vocational education and pollution control," according to the Council, which added that the transfer "would not furnish enough revenue in about half the states to underwrite the federal share of such activities at the present time."

In Nebraska the 40% would produce about \$800,000 annually to apply against present federal grants of \$1,088,369 for vocational education and water pollution control, the Council said, "leaving our state one-quarter of a million dollars short of its present needs for those services."

The proposal to transfer the portion of telephone taxes back to the states was first recommended by the Federal-State Joint Action Committee which is studying ways and means of returning some programs to the states rather than having them under the federal government.

**Emergency Measure**  
First originated in World War I as a quick revenue measure to pay war costs, the telephone tax was again adopted as an emergency revenue measure at the outset of World War II to restrict the demand for telephone service and thus conserve essential manpower and critical materials for defense purposes.

"Although the war ended more than 12 years ago the tax was continued," the Council added.

The tax research group called the telephone tax a "sales tax paid by the user

of the telephone as part of his monthly bill" no part of which can be retained or used by the telephone company.

**'Discrimination' Tax**  
"It is an extreme example of a discriminatory tax on a necessity of our every-day living," the Council declared, adding that "of the 4 essential household services—water, electricity, gas and telephone—only the phone is subjected to tax."

The present system of federal excises is "to a large extent a result of various pressures on Congress, particularly the emergency needs for revenue during the 1930's, WWII, and the Korean War," the Council said.

"Because they have been rather haphazardly selected," the tax group continued, "present excises involve discrimination among taxpayers and undesirable effects on economic activity."

The Council said it appears the "wisest course of action" would be to set a target date for repeal of this "excise tax on this necessity of life."

## General Tells Graduates To Outmode War

Boys Town, Neb. (AP)—"Your job is to make progress toward the elimination of war," the vice commander in chief of the Strategic Air Command told Boys Town graduates at their commencement Sunday. "We must bend all our efforts and our knowledge toward better understanding among nations," said Lt. Gen. Francis H. Griswold. "First, however, we must arrive at understanding among ourselves at home."

"Until we achieve such understanding among nations, we must remain so strong that war cannot come," he continued. "If we do stay strong, we may eventually see the end of a necessity for the military profession. Our job is to keep wars from starting. If war starts, we have failed to do our duty."

He told the 95 seniors and 157 eighth grade graduates of the world famous haven for homeless and underprivileged boys that great good can come from the same weapons which can cause such great destruction.

## Pleasant Hill Gravestone Tells Of 1873 Murder

By Bill Hinel

Pleasant Hill, Neb.—At the southwest corner of Pleasant Hill Cemetery in Saline County is perhaps one of the strangest grave markers to be seen anywhere.

It is a plain stone, something like sandstone. Once white, it is weathered with age and its north side is covered with moss. The stone is about 3 feet high and little more than 12 inches wide.

At its curved top it bears the once popular, engraved hand pointing to the heavens, but it is the inscription which is strangest.

### Story Revealed

The engraving reads: LOUISA—Born in Russia. Wife of F. Sukraw. Died July 2, 1873, Age 36 years. "Leaving Nine Children, the youngest nine months old. Murdered by her brother, F. W. Shultz, two and one half miles southeast of Pleasant Hill. He killed her with an axe and he then ran a mile and cut his throat with his pocket knife."

Next to the strange marker, is a more elaborate one, now tumbled to the ground. It

gone up 14 and 6% respectively, they said.

John H. Litzelman, Ver-million, S.D., president of Corn Belt, said that too often prices of only one or two cuts are mentioned when comparisons are made in meat prices. He said this is unjust because while the general level of beef may remain constant the price of steaks may go up and the prices of chuck roast, for example may go down. The same situation may exist with regard to pork chops and shoulder roasts.

Litzelman pointed out that the "back yard broiler season" of recent years has created an extra demand for steaks. When the steak compartment in retail stores empties quickly while chuck roasts are piling up, the retailer is quickly forced to raise his steak prices and lower the price of chuck roasts. But that does not mean there has been an increase in beef prices.

Litzelman said that the advances in livestock prices during the last year have not been enough to bring them up to the level of prices the feeder has to pay for things he must buy.

## JAPANESE GIRL WILL ATTEND YORK SCHOOL

York, Neb. (AP) — An ebony-haired, 99-pound Japanese miss of 17 years will find out about education in United States schools this fall.

Miss Kazuko Nakatani has been accepted by the York Sertoma Club as an exchange student. During her year's stay in York, she will make her home with Mr. and Mrs. Robert Romans.

Kazuko is one of 4 children. Her father, a lawyer and member of the House of Representatives for 15 years, died in 1954. Her mother, Harue Nakatani, owns a lumber mill in Kochi.

In a letter to Lewis Haight, president of the York Sertoma Club, the Japanese girl wrote that her eldest brother is director of a civil engineering company in Kochi, while another brother is "intending to become a leading movie producer in the future."

Besides her chief interests of politics and diplomacy, she has hobbies of piano, Japanese dancing, softball, skiing

## Horse Sees Red, Upsets City Girls

York, Neb. (UPI)—A pair of Omaha sisters took that ante-bellum advice and "got a horse."

Next time they'll get a helicopter.

Kathy Richardson, 16, and her younger sister, Carolyn, 12, both of Omaha, flew to York with their parents, Mr. and Mrs. Willard Richardson, for a short holiday at the home of Jack Veline.

Veline thought a leisurely 19th century ride in a horse-drawn carriage would be just the thing for the 2 young travellers. They agreed.

Veline, his son, Jimmy, and the sisters went to the 4-Q ranch of Carl Quist, near here, and negotiated the loan of one-horsepower—a nag named "Patches."

All went well until the wonderful one-horse shay arrived at a road construction project. Patches spotted red warning flags and reacted like a fighting bull.

A wheel of the careening carriage hooked on a small building as Patches headed for the open plains. Into Mrs. Quist's cabbage patch tumbled Patches, the Velines and the Richardson girls.

Scratch one carriage and a set of harness, and the 4 passengers will be more comfortable standing than sitting for the next few days.

and tennis.

She wrote Haight:

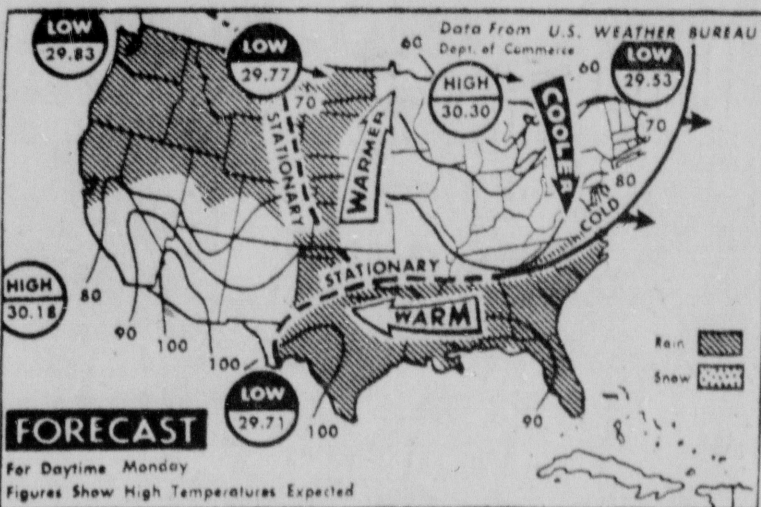

"I am eager to know how Americans think of Japan in their hearts. I have been told about them by many people, but I do not fully understand their stories. I want to see America with my own eyes and want to understand the nation."

"At the same time, I would like to see Japan, my own country, from outside, in order to realize her condition, and thus I want to promote the mutual understanding."

## 15,000 Expected

## F. W. Goldstein Retires—

## He's Been Working On The Railroad—53 Years

Lincoln Star Special

Fairbury, Neb. — F. W. Goldstein, 70, who went to work in 1905 for the Burlington Railroad at Lincoln retired Saturday with 53 years of railroad service.

He started work as a pipe fitter apprentice and worked during this time in the old roundhouse at the Burlington yards. Later he moved to the new roundhouse and worked there until 1916.

It was the custom of the early day apprentice to work for different railroads to learn their technique of handling repairs to steam engines. Mr. Goldstein hired out for several years but returned to the Havelock shops and worked there until 1922.

In Feb., 1923, he hired out to the Rock Island railroad and came to Fairbury. He has 34 years of service with the Rock Island and 14 years of that time was spent at Sylvis, Ill. where he held the position as mechanical foreman.

When a vacancy occurred at Fairbury in 1953, he bid for the job and moved to Fairbury to be near his family who had lived here while he was working in Sylvis.

F. W. GOLDSTEIN

Goldstein has seen many changes in railroads since he hired out as a youth. "I liked the steam engines," said Mr. Goldstein, "each one seemed to be an individual and it was a challenge to keep them running perfectly. I had to learn everything about the diesel and it seems to be a mass of wires and motors."

After a trip to visit his relatives and friends, he plans to do some fishing and in fact has all of his fishing gear ready to try for that bass or catfish.

# Promise Of Future Told Peru Grads

Peru, Neb.—"The future is for men who dare to have great expectations," the general manager of the Goodyear Tire and Rubber Co., Lincoln, told members of the 88th graduating class of Peru State Teachers College at a commencement exercises.

B. M. Stephens, commencement speaker, pointed out that this future belongs to those "who have the courage, the persistence, the wisdom and the patience to transform those expectations into realities."

Speaking to the degree and diploma candidates, Stephens pointed out the necessity for a plan for life.

**Most Significant Era** "Most of you will spend your retirement in the 21st century. Your career will span most of the last half of what in all probability will be the most important and significant century of all the 10s of 1,000s of years man has lived on this planet."

The industrial executive explained that it was brain power and not rocket fuel that placed the first man-made satellite into its orbit.

**Contest Of Life** "This contest of life that you are about to enter is a contest to produce the best trained minds. What more important job could one possibly have to do than to work with the youth of today—molding them into leaders of tomorrow."

"I shall care for you all my life ... and all of yours"

In the marriage ceremony, the groom vows to care for his bride as long as they both shall live.

But most husbands today go beyond this pledge. Through life insurance a man can provide for his wife and children longer than he may live.

How much longer? That depends, of course, on the size of the policies in his life insurance program, and on the size of the family, among other things.

Many a husband has a plan that provides an income for his wife as long as she shall live.

Because a life insurance policy is a contract, its wording is cold, legal and formal. But no wife misses the tender message of devotion that lies between the lines.

## PLUMBING TROUBLES?

# Chrysler, Ford Join GM—Union Contracts Run Out

... 1st Time In 17 Years

Detroit (AP)—Ford and Chrysler contracts with the United Auto Workers ran out leaving half a million auto workers without contract coverage for the first time in more than 17 years.

Like General Motors beforehand, the Ford and Chrysler agreements expired without settlement on new pacts.

The final failure of the Big 3 auto industry companies and the UAW to come to terms climaxed one last full day of vain negotiations at Ford and Chrysler.

UAW President Walter P. Reuther entered for negotiations Sunday in an unsuccessful last-ditch effort to win a new contract or a temporary extension of the old one which expired at midnight.

Ford Vice President John S. Bugas said Ford would not "surrender to another round of wage inflation which already affects the whole economy."

Chrysler spokesmen voiced similar sentiments.

## Major Blow

Loss of contract coverage at the automotive Big 3 was a major blow to the UAW. It has represented GM and 75,000 Chrysler workers since 1937 and Ford's 100,000 production workers since 1941.

The 1,300,000 faced the possibility that smaller auto companies and scores of auto industry supplier firms might follow the lead of the Big 3 and adopt a tougher attitude when their next contract talks come up.

The UAW moved immediately to hold its membership in line during the no-contract period to collect dues which the companies had done for it.

Reuther instructed UAW members to carry out their normal assignments at the Big 3 and to provoke no incidents.

## No Strike OK

He said the UAW would not approve any local strikes during the no-contract period.

Bugas previously warned Ford workers not to participate in work stoppages, slowdowns or sabotage in a no-contract period. The UAW denounced Bugas' remarks as "unfair and a reflection on the loyalty of Ford workers."

Reuther accused the auto firms of taking advantage of the nation's business recession by getting tougher than usual in a "take it or leave it bargaining attitude." He said none of the Big 3 made any further offer to the union than the original proposal of a 2-year extension of the 3-year pact that ended Sunday

night. The UAW turned that down quickly.

## 'Time On Our Side'

He said the automakers have a temporary advantage because of 700,000 unsold new 1958 cars but Reuther warned this advantage would pass away and that "the companies sooner or later will have to sit down and work out 1958 contracts with us whether it is in 2 weeks, 6 weeks or longer. Time is on our side."

The Chrysler-UAW negotiations were broke off without a date being set for another meeting.

Chrysler Vice President John Leary said the company has withdrawn its original offer "but we still hope we can reach agreement promptly."

"The union," Leary said, "has been bargaining like an ostrich with its head in the sand. It is time it took a look around at the economic facts of life in June 1958."

Art Hughes, the chief UAW negotiator, declared "Chrysler has kept a fixed, frozen, inflexible position."

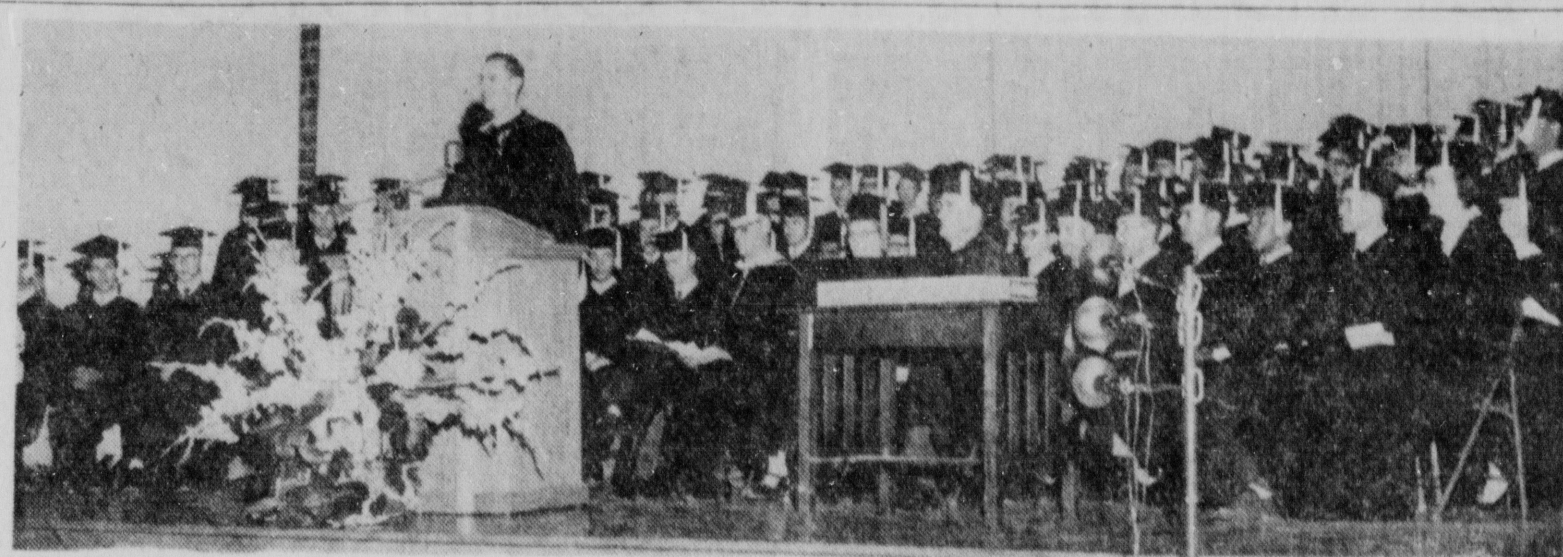

Hughes said, "we will instruct our people to continue working in Chrysler plants."

## Identical Action

The 3 companies followed an identical procedure in negotiations. Each offered a 2-year extension of the current contract with 16 cents in wage increases spread over that time. They did not increase the offer in weeks of bargaining.

The UAW originally asked for wage increases, improved pensions and increased pay for laid off workers. It did not estimate the cost of the package but the auto makers said it would run about 70 cents an hour. The union characterized these estimates as absurd.

Reuther's proposal that workers get a share of the profits of auto firms financially able to pay attracted national attention but little mention was made of it in the last days of negotiations.

Washington D.C. Dean Addresses Union College Graduates

## Union College Grads Told 'Face Problems Of Mankind'

"My feeling this morning is one of perplexity," Dr. W. H. Beaven, dean of the School of Graduate Studies at Potomac University, Washington, D.C., told 102 graduating seniors of Union College at commencement exercises Sunday.

The well-known educator said, "The conclusions so Dr. Beaven smugly believed by the preceding generation are now blasted, and the foundations

of fact and belief on which to build the structure of a life are called in question.

"We have 2 categories of knowledge: science, which deals with the world as it is; and morals, ethics and religion, which deal with the world as it ought to be.

"In the past half century, science has been supreme, but now there is perplexity because our realm of ethics and morals has been unable to control the uses of the newly marshalled physical forces."

He said colleges must "perplex students." He continued, "Students must face the most difficult problems — not how to get a job, support a wife, master a profession or make a billion dollars — but rather to face the eternal problems of mankind."

## Oil Company Helicopter Hits; 6 Die

New Orleans (AP) — An oil company helicopter carrying six men en route to an offshore oil rig crashed in the Gulf of Mexico about 10 miles off the Louisiana coast Sunday.

The Coast Guard reported recovery of one body.

A half-dozen vessels and planes searched for survivors. The helicopter, a Sikorsky S-58, took off from a base at Grand Isle, 50 miles south of New Orleans. Humble Oil Co. owned the craft. Aboard was the pilot and five Humble workers.

## Chinese Girl Willing To Die To Save Dad

Taipei, Formosa (AP) — A 15-year-old girl has appealed to the Supreme Court for permission to be executed in place of her father, a widower, so that he may support her younger brothers.

The father, Chia Ling-shu, is one of 3 men sentenced to death for robbing and murdering a bank cashier after inducing him to steal \$20,000 in U.S. currency. An appeal against the verdict was rejected by the Supreme Court earlier in the week.

In ancient times there were cases in which the Emperor of China, moved by the filial piety of children, spared their parents from death. Under modern Chinese law, there is no provision by which a child may die on behalf of a convicted parent.

## 50-Minute Find In CAP Search

Omaha (AP) — Twenty-four planes, nearly 200 persons and 10 mobile units took part Sunday in a search and rescue test of the Nebraska wing of the Civil Air Patrol.

Within 50 minutes after take-off, Capt. James Walker, commandant of the Offutt squadron and Ralph Moran of the Omaha squadron, simultaneously sighted the marker representing a missing F-84.

The "wreckage" was a silver wing, orange parachute and blue flying suit placed southwest of Mead by Air Force officials grading the test mission.

## Mother Drowned Saving Children

Paso Robles, Calif. (AP) — Mrs. Earlean Mary Colomb, 41, thought her children and 3 others swimming in a motel pool at Pismo Beach were in trouble so she jumped in fully clothed to help them.

Bystanders pulled her and the children from the pool. Mrs. Colomb was dead. The children were unharmed.

MRS. EDITH ELDER

## Wesleyan Alumni Banquet To Honor Class Of 1908

Nine members of the honor class of 1908 at Wesleyan University will be honored guests at the alumni banquet Monday evening at the Cornhusker Hotel.

They will be: Mrs. Edith Elder of San Jose, Calif.; Mrs. Winifred Mattley of Lincoln; Mrs. Mattie Currier Reed of Los Angeles; Mrs. Cosa Haskell Lindberg of Lodi, Calif.; Miss Ethel Newell of Minden, Mr. and Mrs. Walter Kiechel of Tecumseh, Lee Greenslit of Lincoln and

Charles Stewart of Grand Island.

Also to be recognized will be the classes of 1938 and 1958. Speaking for the 1958 class will be Donald Rezek, senior class president.

James Ackerman of Lincoln will speak for the class of 1938. Representing the honor class of 1908 will be Mrs. Elder.

Since her graduation from Wesleyan, Mrs. Elder, the former Miss Edith Dimmitt of Wymore, has led an active and varied life.

She taught in public schools in Nebraska for several years and did vocal and piano concert work throughout the Midwest.

When Mrs. Elder developed jaw trouble and couldn't continue with her singing she started her second major avocation, painting.

In her painting she stresses brilliant coloring which may be reflective of the area in which she has done much of her work, Spain. She has had several one-man exhibitions.

An avid student of languages Mrs. Elder has learned Latin, Swedish, Hebrew, Japanese, Chinese, French, German, Spanish and Italian. She has also studied Russian and Greek.

Her husband, the late Dr. Jay Elder, was a native of Hubbell. He served as dean of San Jose State College for 31 years, until the time of his death 3 years ago.

## Explorer III May Plummet During June

Cambridge, Mass. (UPI) — America's second artificial satellite, Explorer III, may fall to earth late this month, Smithsonian Astrophysical Observatory said Sunday.

The death of Explorer III was predicted for late June in an observatory statement saying the carrier rocket of Sputnik III likely will make its death plunge next fall, probably in November.

Smithsonian said that Explorer I is expected to stay aloft for several more years and that Vanguard I may orbit more than a century.

Wearing alike, ballerina frocks of white lace over taffeta sashed with blue satin were Mrs. W. W. Noyes, Jr., of Los Angeles, as the matron of honor; the bridesmaids, Miss Darlene Hansen, Oakland, and Miss Kathy Read, Lincoln; and the bridesmatrons, Mrs. Ron Peterson, Omaha, and Mrs. Orin Heuer, Walnut, Ill. The bride's gown of white Chantilly lace over taffeta was designed in the period mode. Appliques of pearl-embroidered lace patterned the illusion yoke to create a bateau neckline, and the snug bodice was completed by long, fitted sleeves. The width of the full skirt was emphasized at the back by a draped pouf bow of taffeta.

## Held Dinner

Mr. and Mrs. Howard Deems entertained members of their family at a dinner held at their home on Sunday.

Her wide-brimmed hat of matching tulle and satin ribbon reflected the tone of her frock, and she carried a nosegay of white carnations. Dear Abby . . .  
The Ouija Board Is Out.  
Abigail Van Buren

DEAR ABBY: I am not the kind of person who makes a habit of sticking my nose in my neighbor's business, but I hate to see anybody taken advantage of. This poor elderly lady was sold a bill of goods and is seriously considering investing her life's savings in a very shaky deal. Her "financial adviser" tells her that her dead son is guiding the whole deal by communication with her through the Ouija board. If you believe that you can communicate with the dead by means of a game bought in a Toy Department, please ignore this letter. Otherwise, please help this poor soul and state your opinion.

CONCERNED  
DEAR CONCERNED: The Ouija Board is spelling out F-R-A-U-D. Tell your neighbor that the place to get sound financial advice is from her banker. The Ouija Board operator is a faker and should be investigated.

DEAR ABBY: I am wondering if you could give me help with my problem. There is no question in my mind about whether or not parents should spank their children. "Spare the rod and spoil the child" is a very wise saying. I would like to know how old you think a child should be before his father quits spanking him? Thank you.

INQUIRING FATHER  
DEAR FATHER: That would depend on the BEHAVIOR of the child and the

SIZE of the father.  
DEAR ABBY: The night watchman where I work has his eye on me. I like him, too. He took me to the Church Easter Egg hunt and that started everyone talking. I am 58 and nobody knows how old he is, but they all say he's too old for me. Should I ask him his age, or don't you think it makes any difference?  
YOUNG AT HEART  
DEAR YOUNG: If he likes you and you like him, don't worry about his age. The state of his health and his personality are much more important.

CONFIDENTIAL TO  
"SEÑORITA LOLITA:" It's the same in English as it is in Spanish. "NO!"

DEAR ABBY: What do you think of a man who never tells his wife he loves her? Or maybe I am wrong to expect to hear it after twelve years of marriage. Far as I know (and I've done some checking) he isn't interested in anybody else. How can I get him to say "I LOVE YOU" without putting the words in his mouth?

HUNGRY FOR LOVE  
DEAR HUNGRY: Some men are not the sweet-talking type. If he ACTS like he loves you, be satisfied.

If you have a problem, write to Abigail Van Buren in care of this paper. She will be glad to answer your letter. For a personal reply, please enclose a stamped self-addressed envelope.

PERSHING HEIGHTS

Understand that Mr. and Mrs. Henry Gruenemeier and their son, Rieny, will be leaving Lincoln this morning for their new home in Scottsdale, Ariz., and during the past week there have been numerous farewell courtesies on the agenda.

On Wednesday the Pershing Heights Home Extension Club met at the home of Mrs. Robert Fletcher with Mrs. Val Gartside serving as assistant hostess, and during the evening Mrs. Gruenemeier was honored by her fellow members.

Entertaining for Mrs. Gruenemeier on Tuesday morning were the members of her bridge eightsome, Mrs. David Schumann, Mrs. Tom Novak, Mrs. Victor Gruenemeier, Mrs. Ray Anderson, Mrs. Jim Folsom, Mrs. Ford Eckles and Ted Marshall.

Mrs. Gruenemeier also was honored on Thursday, May 22, when the Matronettes met for a luncheon at the home of Mrs. Ted Marshall.

Turning to news of Memorial Day we learn that Mr. and Mrs. Raymond Scholtz and their children, Susan and Michael, motored to Hastings where they were the guests of Mrs. Scholtz' mother, Mrs. Charles Frasier, and Mr. Scholtz' parents, Mr. and Mrs. John Scholtz.

Holiday plans for Mr. and Mrs. Louis Clupney included a family picnic at Bethany Park, and on hand for the affair was Mr. Clupney's mother, Mrs. Christine Freese, who had returned to Lincoln Friday morning from a California trip.

Mrs. Freese had been visiting her son and daughter-in-law, Mr. and Mrs. Charles Clupney, and her brand new grandson, Robert Louis Clupney, at their home in San Jose.

Mr. and Mrs. Van Tyler certainly had a busy weekend schedule it would seem. Spending Memorial day at their home were Mr. Tyler's parents, Mr. and Mrs. G. V. Tyler of Calloway, and the Tylers entertained at a picnic on Saturday when they had as their guests Mr. Tyler's brothers-in-law and sisters, Mr. and Mrs. Bill Slaughter and their children, Bill, Tom and Jeanne, of Grand Island, and Mr. and Mrs. Robert Gaston and their daughter, Carol Jo, of Beaver Crossing.

NORTHEAST HEIGHTS  
Visiting at the home of Mr. and Mrs. Donald Broman on Memorial Day were Mr. and Mrs. Elton Hedquist of Rock Island, Ill., and arriving at the Broman home on Saturday for a weekend visit were former Northeast Heights residents, Dr. and Mrs. Darrel Moreland of Omaha.

Incidentally, Mrs. Ralf Holmes tells us that her parents, Mr. and Mrs. G. V. Newcomer, returned to Lincoln early in May after having spent the winter months vacationing in California.

Last week the couple traveled to Greene Ia., for a three week visit with their son-in-law and daughter, Mr. and Mrs. Clyde Stuntz.

Stan Delaplaine's POSTCARD

For about \$2000 Hong Kong dollars (\$345 U.S.) you can buy yourself a sampan and a girl to row it and get in a profitable business. The sampan is the expensive part of the investment — the girl costs only \$35.

Last night we went down to the Typhoon shelter and caught one of the water taxis.

The Water People are a curious part apart of Hong Kong life. The Water People sail the big rib-sailed fishing junks with painted eyes. They run the butterfly-sail lighters on the crowded harbor where the Pearl River comes down from China.

But at night the junks and lighters and sampans tie up in rows as orderly as any suburban street. On the corners of their water streets are the floating restaurants and night clubs, hospitals and churches.

Our sampan had a bamboo and matting roof. One girl rowed a single oar at the front and another used a sculling oar at the stern. Both were Water People — the Hakka who are born, live and die on Hong Kong water.

The Hakkas have always lived on the water. A shorter, darker and different breed from the shoreside Cantonese. In older days they were the river pirates.

With translation, the two Hakka girls outlined the business of sampan running.

You buy a sampan. Maybe a fleet of sampans!

You then find a Hakka family with a surplus of daughters. A Hakka girl child costs from \$30 to \$35. You raise the girl child as a helper on the sampans. And eventually she becomes a water taxi driver.

She lives and cooks on the sampan. If she marries, she raises her children on the sampan. The cost to you is only food and cotton clothing.

Business was booming on the water. Little sampans went scuttling by with floating delicatessen. The cook

sits at the stern with a glaring gasoline lantern hung on the mast.

His stove is a shallow trench of charcoal set into the gunwales.

When he gets a customer on the boats, he spins his boat like a lazy Susan — the customer just reaches into whatever pots he likes along the edge of the boat.

Along night club row, the sampan girls sit out at the front of their flowered sampans, calling out encouragement to the people floating by.

"In here you can forget all your worries and be happy."

At \$1 for every 10 songs, we hired a sampan with two sing-song girls to float along with us. They played a three-string banjo and a sort of instrument that looks like a zither.

The music is that wailing five-note scale Chinese music. The girls sing in a thin, high voice. And you wouldn't believe what you hear when they play "Seven Lonely Nights."

When the sing-song girls began to jive, a few boats of free-loaders drifted up alongside. Most of them were floating mah jongg players — the oldest floating crap game in "Guys and Dolls" must have been inspired here.

It was quite a sight: The lights reflected on the black water; the thin, high voices and the tinkling instruments; the sampan girls calling. The delicatessen boats drifting by. The big, high-pooed fishing junks with a glow of red light coming through the red curtains.

And after awhile, the sampan taxied us back with a steamy, tropical rain beating on the matting cover.

Manila (AP)—The Indonesian Rebel radio claimed 3 government warplanes were shot down while raiding the town of Djailolo, on Halmahera Island in East Indonesia. The broadcast, from Menado, North Celebes, said 2 F51 fighters and a B25 bomber were knocked down.

# Dodger Politics Dwarf Baseball

Los Angeles (AP)—The Dodgers may be out of the running in the National League race at the moment, but they're in the thick of things in local politics.

The question of whether the club is to get 300 acres of city-owned land in Chavez Ravine for a new ball park has stirred up the citizenry something fierce.

It will all be decided at the polls in Tuesday's primary election, and for once a ball club will probably be more interested in the election returns than in the batting averages and box scores in the next day's papers.

Partisans on each side are predicting victory, but not with any great assurance. Polls taken in various sections of the city have shown that the issue could be decided either way.

During the last few days before the election the pace of the campaign has picked up considerably. Opponents of the deal to transfer the Chavez Ravine property to the Dodgers in exchange for Wrigley Field and the 10-acre site on which the former minor league park lies, have concentrated their fire in the city council, where their champion, John Holland, sits.

He and his supporters claim the city is giving away far more than it is getting back in the Chavez Ravine deal.

Backers of the contract wheeled their biggest guns into line Sunday when they produced an imposing array of civic leaders, motion picture and television stars and sports figures on a five-hour "Dodgerthon" on television. One after the other, they came forward to urge a "Yes" vote on Proposition B, the referendum's ballot designation.

Adding drama to the situation is the return of the Dodgers from a long Eastern trip — their first since they moved west from Brooklyn — at the height of the mounting excitement. They'll be opening what is billed as a home stand Tuesday night against Cincinnati.

## IL To Get Tough On Dugout Off

MIAMI, Fla. (AP)—President Frank Shaughnessy of the International League has forbidden pitchers to dust off a batter who follows a home run hitter.

In a bulletin issued to umpires and managers the head of the Triple A league said "It is getting so that now when a player hits a home run, the next player is pretty sure he is going to be knocked down."

"Umpires are hereby instructed that when this occurs . . . the pitcher will immediately be removed from the game."

Two fights followed "dusting" incidents last week in play between Buffalo and Havana at Buffalo.

Wednesday, Buffalo batter Luke Easter flung his bat at Cuban pitcher Vincente Amor after an Amor pitch sailed behind him. A rhabarb resulted.

The next night, Dave Newkirk's pitch whistled behind the neck of Cuban batter Witty Quintana. The two tangled.

# Patterson Ordered To Defend Title

Paris (AP)—The World Championship Boxing Committee Sunday ordered heavyweight champion Floyd Patterson to defend his title before Sept. 30 in a bout with one of four top contenders. The committee said that if Patterson failed to comply he would be stripped of his title.

Patterson has not risked his championship since last Aug. 22, when he knocked out Pete Rademacher, making his bow as a professional.

The World Championship Committee, which links the New York State Commission, the British Boxing Board of

Control and the European Boxing Union, seeks to have each championship defended every six months. Exceptions have been made to meet specific cases.

The committee Saturday issued its lists of champions and leading challengers. Eddie Machen, of Redding, Calif., and Zora Folley of Chandler, Ariz., were bracketed as the top contenders. Willie Pastrano of New Orleans and Miami Beach was listed next followed by Roy Harris of Cut and Shoot, Texas.

The statement issued by the committee at the end of its annual meeting said:

"The period in which the world heavyweight title should have been defended has been exceeded by far. The world championship committee considered that the persistent refusal by Patterson and his manager to defend the heavyweight title cannot be considered as serving interests of boxing in general and Patterson's own reputation in particular.

"In consequence the committee decides that Patterson must defend his title against one of the officially designated challengers (1. Machen and Folley, 2. Pastrano 3. Harris) before Sept. 30, 1958.

## Washington, Stanford Invited To Join West Coast Teams To Form 'Big 5'

Seattle (AP)—Washington and Stanford have been invited to break with the Pacific Coast Conference and join California, UCLA and Southern California in an athletic "Big Five", the Post-Intelligencer said Sunday.

The latter trio has announced plans to withdraw from the 40-year-old PCC in 1959. The date coincides with the end of probation for UCLA, chastized 3-years athletically for unapproved payment of football players.

Southern California, in the same boat for two years, decided to make the jump along with UCLA, and California followed them.

Washington, which also drew a two-year probation, has remained in the conference thus far.

Stanford has given no indication it plans to leave the PCC.

The Post-Intelligencer said

it learned of the "Big Five" plans through "a routine check with a California source."

"Preferred scheduling, operating under their own (athletic) code and the additional bait of the Rose Bowl are the selling points of the southern schools," the newspaper article says. The conference now holds a contract with the Tournament of Roses to provide teams for the 1959 and 1960 Rose Bowl games.

Next year all schools except UCLA and Idaho—which does not play a complete conference schedule—will be eligible for the post-season football classic.

In 1960, the eligibles will be Oregon State, Oregon, Washington State, Stanford and Washington.

The Post-Intelligencer article said it is "extremely doubtful" the present Rose Bowl agreement "will stand

beyond 1960. If the coast conference doesn't move to cancel it late next fall, the Tournament of Roses Committee will."

Jack Koehn, Waterloo, Ia., junior at Michigan State, won letters in boxing and wrestling during the winter. He's a 123-pounder.

Just by driving you can restore power by getting your engine Keotane-Clean.

It's fun to drive a clean engine with plenty of reserve power . . . makes you feel like the "king of the road" with confidence and safety.

## It's Easy! All You Do Is Just Drive With Keotane To Drive Your Engine Clean

Power steering, power brakes, air conditioners cut down horsepower. You can get 14.6% more horsepower output when you drive an engine that's Keotane-Clean:

DO you have any idea how much of your car's 200+ h.p. it takes just to run your air conditioner? Engineers say that keeping yourself cool under the collar while driving can eat up nearly 14 horsepower.

Power steering and power brakes eat up another 4 h.p. Besides that, on a hot summer day you lose about 11 more horsepower just because the air itself is lighter. Add all these losses together and you'll find yourself shy about 29 horses!

Is it any wonder, then, that your car seems sluggish when the mercury is up around the 100° mark and the air conditioner is going full blast?

Keotane can help you get these lost horses back. Tests prove a Keotane-Clean engine gives you an average of 14.6% more h.p. output.

You get better mileage, too. Prove it to yourself with a free Skelly Mileage Meter. Ask your Skellyman.

See chart for all the benefits you get just by driving with Skelly Supreme, the cleaning, cleaning gasoline.

### NOW HIGHEST OCTANE!

Octane of Skelly Supreme has just been increased to the highest rating in Skelly's history.

Estimated Extra Value Per Gallon To You, Of Skelly Supreme Gasoline With Keotane:

(Based on average current premium gasoline prices in the Midwest)	
12.7% average gain in mileage	3.8c
3 octane points extra performance effect	1.0c
14.6% more horsepower output (h.p. saved or added)	.8c
Less gum and cleaner carburetors, faster starts with fewer sputters, longer life for batteries	.5c

Estimated extra value per gallon to you. **6.1c**

The extra values shown above are conservative estimates by our engineers. These extra values are not figured against inferior premium gasolines or regular grade gasolines, but against Skelly Supreme Gasoline without Keotane, the best top-octane premium gasoline previously made.

Only Skelly Supreme Gasoline Gives You 6.1c Extra Value

Per Gallon with **Keotane**

(Registered U. S. Patent Office)

- 6.1c makes other premium gasoline expensive to use;
- 6.1c makes any regular gasoline expensive to use;
- 6.1c makes any "cut rate" gasoline expensive to use.

All us girls ask of a gift is that it is glamorous, generous and hockable.

Here is a pleasant little game that will give you a message every day. It is a numerical puzzle designed to spell out your fortune. Count the letters in your first name. If the number of letters is 6 or more, subtract 4. If the number is less than 6, add three. The result is your key number. Start at the upper left-hand corner of the rectangle and check every one of your key numbers, left to right. Then read the message the letters under the checked figures give you. PARADE OF THE HANDCARTS!

NEARLY 4,000 MORMONS CROSSED THE WESTERN PLAINS FROM THE MISSOURI RIVER TO THE SALT LAKE VALLEY, UTAH, FROM 1856 TO 1861, PUSHING OR PULLING HEAVILY-LADEN HANDCARTS! ALL THEIR BELONGINGS WERE HAULED IN THE CRUDE CONVEYANCES!

"It's very simple--"green" is keep going, "red" is to stop, and "amber" is when you can't quite make up your mind what to do."

DAILY CRYPTOQUOTE

Here's How To Work It

AXYDLDAAXB  
is LONGFELLOW

One letter simply stands for another, in this example, A is used for the three L's, X for the two O's, etc. Single letters, apostrophes, the length and formation of the words are all hints. Each day the code letters are different.
